Unipol K9 Waterplug Rapid Setting Mortar

Product Data

Unipol Waterplug K9 has been formulated as a cementitious rapid setting mortar for instant plugging of severe water leaks in concrete structures.

Description

Dry powders containing cement, silica and reactive chemicals.

Appearance

Unipol Waterplug K9 is a dry cement-grey coloured powder.

Performance

Usually approximately 0.5 kg per plug.

Mixing

Storage as for cement-dry conditions. Mix sufficient water to the powder to produce a moist earth consistency which should be rolled into a firm plug and pushed firmly into a prepared hole the leak is occurring. Maintain pressure against the plug until it hardened, usually approximately 1 minute.

Supply

Supplied in 5 kg plastic pail.

Health and Safety at Work

Warning and information concerning the safe handling and use of our products are displayed on their containers and in a Health and Safety data sheet. It is the Purchaser's responsibility to ensure that the materials are stored and handled safely.

Safety Precautions

Read each component's Material Safety Data Sheet before use. Mixed material has hazards of each component. Safety Precautions included with Application Instructions must be strictly followed during storage, handling and use.
